### **SOLUTIONS for all shipping needs**

During our last decade specializing in the tradeshow industry, we have worked with exhibitors to develop the following solutions to various situations our customers encounter with other logistic companies. Some of your benefits utilizing **Typhoon** as your **NIFS West 2009** carrier are:

- **ON-SITE PROJECT MANAGERS** – Project Managers are on-site to assist with all your shipping needs. Our staff will provide 24/7 mobile phone numbers for follow-up questions.
- **AVOID HIDDEN CHARGES** - Typhoon provides quotes in writing, per pound, door-to-door and round trip. **NO WAITING or CONVENTION FEES, GUARANTEED!**
- **AVOID PAPERWORK & LINES** – We provide the same pre-printed labels and tracking paperwork that Show Management uses when shipping their exhibit materials and show guides with Typhoon. This allows you to focus on exhibiting and sales, not confusing paperwork.
- **STORAGE** - We will store and logistically ship your exhibit and materials during your tradeshow exhibition schedule, provide inventory control and reduce the cost of “back and forth” shipping. Depending on your show schedule, you may qualify for our free storage program.
